

JANE JAMES & ASSOCIATES

We're an award-nominated, family-run expert witness reporting company with over 35 years of experience in the medico-legal industry.

ABOUT US

Headed up by mother-and-daughter team Jane James and Lucinda Lloyd, Jane James and Associates have been leaders in the expert reporting profession for over 35 years.

We accept instructions from both Claimant and Defendant solicitors for liability reports, and quantum reports focusing on catastrophic injuries and complex care.

SERVICE YOU CAN RELY ON

We provide straightforward, highly regarded clinical negligence and personal injury reports supported by a personalised, professional and award-nominated service you can rely on.

Our reports comply with Civil Procedure Rules Part 35 and our first-rate services extend across the UK, Ireland, and internationally.

OUR EXPERTS

Our experts are based across the UK. They are highly experienced registered nurses, occupational therapists, and physiotherapists, many of whom work as case managers within litigation.

JJ&A experts receive comprehensive expert witness training and understand and adhere to the Civil Procedure Rules Part 35.

OUR REPORTS

Our liability reports are well presented, clear and concise, and our experts are trained to understand the terminology and phraseology relating to the legal tests used in liability reporting.

Our quantum reports are equally well-presented, robust, straightforward to read, and transparent on costs.

Our experts understand that the objective is to quantify the Claimant's past, ongoing and future needs and that their recommendations must be reasonable and justifiable.

When you engage our services, you benefit from a motivated and well-supported team of experts who are genuinely invested in providing the best possible, high-quality reports for the Court.

In addition, our dedicated internal expert liaison team is always on hand to provide pragmatic, professional advice and ensure your instructions run smoothly.
